Notes:

1. The table does not include all bands permitted for Bulgarian radio amateurs, it includes only the most common ones for
2. The simplex calling frequencies at 2 m and 70 cm are 145,450 and 145,500 MHz (FM), 144,300 MHz (SSB) and 433,500 MHz (FM). After establishing a connection, these frequencies are abandoned and the communication moves to another selected free frequency.
